NATURE TRIPS

## ABOUT THIS LOCATION

Morocco's numerous ecosystems and its diverse habitats make it a top destination for wildlife. This trip is an excellent introduction to the plants, birds and wildlife of Morocco and including some of the many cultural highlights.

Based in the Atlas Kasbah Ecodge, located in the designated Unesco Argan Biosphere Reserve, we will explore a unique area influenced both by the Mediterranean and the desert floras. The Argan tree, *Argania spinosa*, is confined to this area and is an iconic plant for the Berber communities that use its health-giving oil for cooking and cosmetic purposes. It belongs to the tropical family the Sapotaceaea as a relic from the time when the region had a tropical climate.

This itinerary offers the chance to discover many plants, butterflies, birds and other animals as well as relax and enjoy the Kasbah itself.

## HIGHLIGHTS

- Excellent introduction to the flora, fauna and culture of Morocco
- Discovery of different ecosystems : Atlantic coast, Atlas mountains, oases, Berber villages, Imperial city of Taroudant and above all the Souss Massa National Park
- High standard of accommodation (designed sustainably and run in an eco-friendly way)
- Relaxed pace with a few hikes
- Many available activities : astronomy, cooking class...

## POSSIBLE DAY TRIPS FROM THE ATLAS KASBAH

1. Mesguina (5km)
2. Cap Rhir, Tamri (70 km)
3. Taroudant, Tiout (130 km)
4. Souss Massa national Park (60 km)
5. Western High Atlas mountains (60 km)
6. Anti Atlas mountains (100 km)

Located in the UNESCO Argan Biosphere reserve, the Atlas Kasbah is the perfect place for your nature and wildlife trips. With its 11 rooms, the Ecologie can accommodate groups from 6 to 26 people.

### STUNNING LOCATION

The Atlas Kasbah is situated in a spectacular location, on the quiet foothills of the High Atlas Mountains, in Southern Morocco, only 20 minutes from Agadir airport but far from hassle and bustle.

Nestled in the UNESCO Argan Biosphere Reserve among natural beauty and forested surroundings, the gardens of organic vegetables, fruits and herbs will give you the opportunity to commune with Nature in a clean and pure environment.

### PHILOSOPHY

The Kasbah with its eco-friendly materials and philosophy has been awarded the Gold Medal at the International Responsible Tourism Award 2015 in London. It is committed to protecting Nature with practices and proactive measures such as organic farming, chemical-free cleaning and to giving value to local culture by hiring and training Berber people to work there.

# ROOMS & BOARD

## ROOMS

11 Individually decorated ensuite rooms overlooking the idyllic surroundings of the Atlas Mountains and the Berber villages.

All rooms, inspired by Berber influences, are beautifully designed with eco-friendly materials such as rammed earth, timber and local handcraft products. All of the rooms have a private bathroom with shower & Complimentary eco-friendly amenities.

## MEALS

We offer delicious Moroccan cuisine, nutritious meals cooked according to local tradition using the freshest locally-sourced seasonal organic fruits and vegetables. Cooked with healthy pure virgin olive oil or argan oil and other natural Moroccan products.

Full catering for all diets including vegan is available with a little prior notice.

You are welcome to compliment your nature trip with the many activities the Ecolodge offers to do sports or discover local Berber culture.

## A LA CARTE ACTIVITIES

- Take part of a cooking class
- Hamam & massage treatments
- Create a pottery craft
- Decorate objects with lime-plaster or tadelakt
